Place: CH 5

Ages: Designed for **Children’s House** students

As we well know, the first six years of a child’s life set the foundation that shapes the child’s future health, happiness, growth, development and learning ability. Early experiences provide the base for the brain’s organizational development and functioning throughout life. Music’s melodic and rhythmic patterns awaken and stimulate neural pathways in the brain that help develop memory and math skills.

TMS is extremely fortunate to have Ms. Brenda Morie, a professional flutist, vocalist, guitarist and certified Musikgarten Instructor leading this studio. The Musikgarten program is a wonderful complement to our Montessori music curriculum that gives children sequential training in rhythm and melody through movement and activity. During this Winter Studio students will enjoy a musical celebration called "Wind Dancers" with activities that build on the child’s growing independence and competencies. Lessons include songs with movement activities, exploration of instruments and imaginative stories. Parents are invited to join the fun and participate in any or all sessions at any time with advance notice per class. Participants are encouraged to purchase the home materials including 2 CD’s, songbook and animal picture cards to allow the learning and fun to be done at home for an additional \$48. If you purchased the home materials for the Fall Studios then you are already covered for the 8-week winter session. Families are encouraged to play the music daily in the car, at home and on their phone to help familiarize and ear train your child for a better classroom experience. The music is also available on digital download.
